

Forum

Add and Configure a Forum Activity

Lecturer

On this guide:

- A. [Creating Forum Activity](#)
- B. [Configure Forum Options](#)

- The forum activity module may be used to have asynchronous discussions, i.e. discussions over an extended period.
- Forums have many uses, such as a social space for students to get to know each other; for course announcements (using a news forum with forced subscription); for discussing course content or reading materials; For continuing online an issue raised previously in a face-to-face session;
- A help center where tutors and students can give advice; A one-on-one support area for private student-teacher communications (using a forum with separate groups and one student per group); For extension activities, for example 'brain teasers for students to ponder and suggest solutions to.
- There are several forum types to choose from, such as a
 - standard forum where anyone can start a new discussion at any time;
 - a forum where each student can post exactly one discussion, or
 - a question and answer forum where students must first post before viewing other students' posts.
- A lecturer can allow files to be attached to forum posts. The attached images are displayed in the forum post.
- The subscription mode to optional, forced, or auto, or prevent subscription completely. If required, students can be blocked from posting more than a given number of posts in a given time period, preventing individuals from dominating discussions.
- Forum posts can be rated by teachers or students (peer evaluation). Ratings can be aggregated to form a final grade which is recorded in the grade book.

Pre-condition

1. The user must be on a Moodle course page as a Lecturer of the unit. See [Moodle Enrolment](#), [Accessing your course](#), and [The Moodle course](#).
2. The Course Editing is on. See [Course Editing On/Off](#).

A. Creating Forum Activity

Procedure

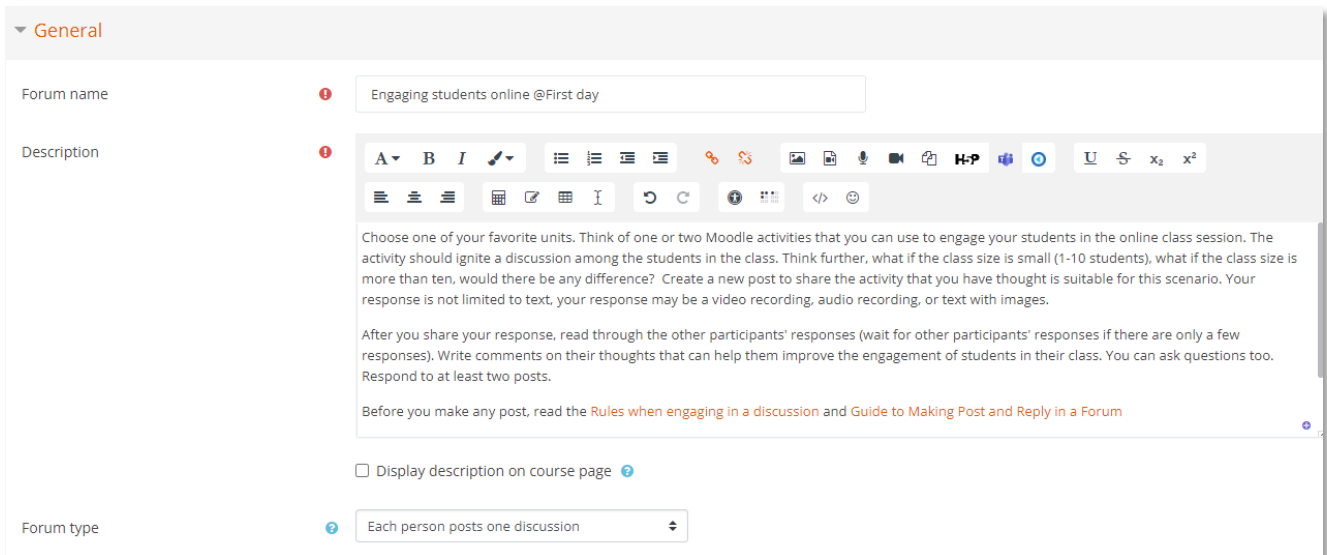

1. Planning for a Forum activity
 - a. Review the [Configure Forum Options](#) for details of Forum activity settings.
2. Adding a Forum activity
 - a. Go to the section where you want to add a Forum activity.

- b. Create a Forum activity [Forum](#). The Forum Activity can be found under Activities or All tabs. See [Adding an Activity or Resource in a section](#).

3. Setting the General

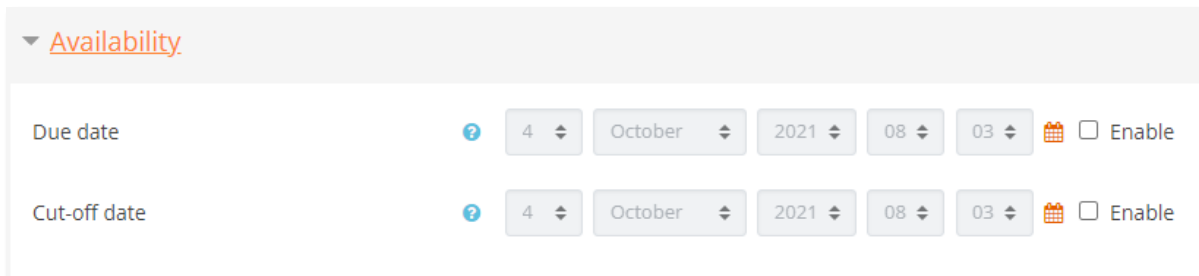

- a. Enter the **name** and **description**. See [Configure Forum Options](#) for required and optional settings.
- b. Select a **Forum type** depending on your requirement. See [Configure Forum Options](#) to see the description of each form type.

The screenshot shows the 'General' configuration tab for a Moodle forum. The 'Forum name' field contains 'Engaging students online @First day'. The 'Description' field contains a rich text editor with the following text: 'Choose one of your favorite units. Think of one or two Moodle activities that you can use to engage your students in the online class session. The activity should ignite a discussion among the students in the class. Think further, what if the class size is small (1-10 students), what if the class size is more than ten, would there be any difference? Create a new post to share the activity that you have thought is suitable for this scenario. Your response is not limited to text, your response may be a video recording, audio recording, or text with images. After you share your response, read through the other participants' responses (wait for other participants' responses if there are only a few responses). Write comments on their thoughts that can help them improve the engagement of students in their class. You can ask questions too. Respond to at least two posts. Before you make any post, read the [Rules when engaging in a discussion](#) and [Guide to Making Post and Reply in a Forum](#)'. There is a checkbox for 'Display description on course page' which is currently unchecked. The 'Forum type' dropdown is set to 'Each person posts one discussion'.

4. Setting the Availability

- a. Tick the corresponding **Enable** checkbox if setting the **Due date** and **Cut-off date**.

The screenshot shows the 'Availability' configuration tab for a Moodle forum. It features two rows of date selection controls. The first row is for the 'Due date', and the second row is for the 'Cut-off date'. Each row includes a help icon, a dropdown for the number of days (set to 4), a dropdown for the month (set to October), a dropdown for the year (set to 2021), a dropdown for the day (set to 08), a dropdown for the month (set to 03), a calendar icon, and an 'Enable' checkbox which is currently unchecked.

5. Setting Attachments and word count.

- a. Select the upload size from **Maximum attachment size** if students are required to upload a file; otherwise, select Uploads are not allowed to enter their posts or responses directly.
- b. Set the **Maximum number of attachments** if an upload is allowed.
- c. Set the **Display word count**.

▼ Attachments and word count

Maximum attachment size	?	Uploads are not allowed ▾
Maximum number of attachments	?	1 ▾
Display word count	?	Yes ▾

6. Setting Subscription and tracking

- Set the **Subscription mode** and **Read tracking** as per your requirement; otherwise, leave the default settings.

▼ Subscription and tracking

Subscription mode	?	Optional subscription ▾
Read tracking	?	Optional ▾

7. Setting Discussion Locking

- Set the **Lock discussion after a period of inactivity** as per your requirement; otherwise, leave the default settings.

▼ Discussion locking

Lock discussions after period of inactivity	?	Do not lock discussions ▾
---	---	---------------------------

8. Setting Post threshold for blocking

- Set the **Lock discussion after a period of inactivity** as per your requirement; otherwise, leave the default settings.

▼ Post threshold for blocking

Time period for blocking	?	Don't block ▾
--------------------------	---	---------------

9. Setting Turnitin plagiarism plugin

- Select **Yes** if the requires the students' paper to be feed to Turnitin.

▼ Turnitin plagiarism plugin settings

[QM](#) Launch Quickmark Manager

Enable Turnitin

Display Similarity Reports to Students Yes
This setting is locked at the site level

Allow submission of any file type? Yes
This setting is locked at the site level

Store Student Papers Standard Repository

10. Setting the Whole forum grading

- a. Set the appropriate grade setting for the forum.

▼ Whole forum grading

Grade

Type

Scale

Maximum grade

11. Setting Activity completion

- a. Set the Activity completion as below or depending on your requirements.

▼ Activity completion

Completion tracking Show activity as complete when conditions are met

Require view Student must view this activity to complete it

Require grade

Require posts Student must post discussions or replies:

Require discussions Student must create discussions:

Require replies Student must post replies:

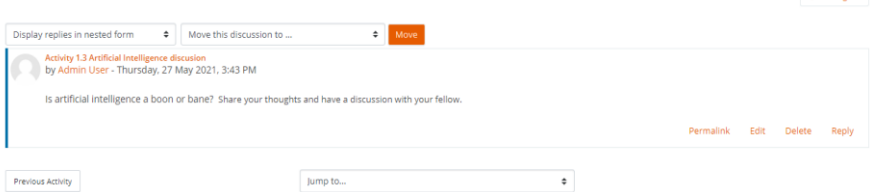

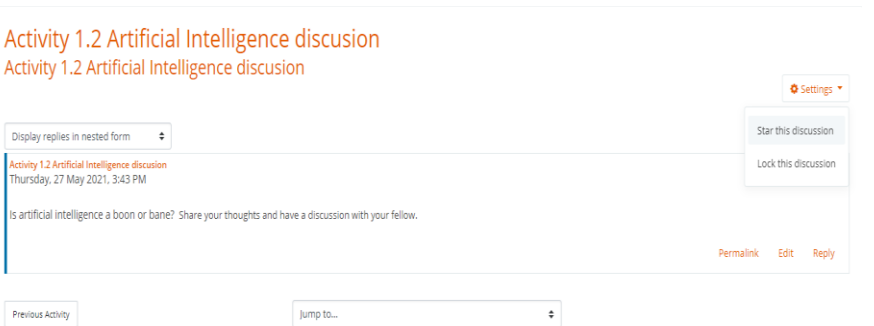

Expect completed on Enable

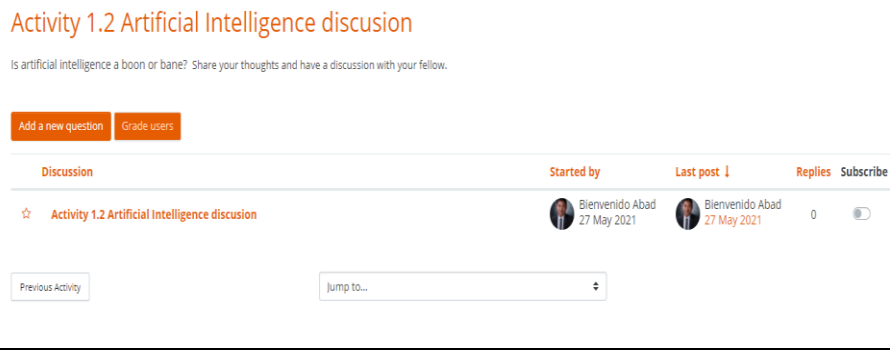

12. Save

Leave other settings, then click **Save and return to course** to go back to the course page or **Save and display** to display the **Forum activity page**.

[Save and return to course](#)[Save and display](#)[Cancel](#)

B. Configure Forum Options

	Setting	Moodle Description	IBS Moodle Setting
General	Name of Assessment	Identifier and text display	<ul style="list-style-type: none"> See Convention for Name and Description of an Activity or Resource
	Description	If enabled, the description will be displayed on the page just below the name activity or resource.	<ul style="list-style-type: none"> See Convention for Name and Description of an Activity or Resource
	Forum Type	<ul style="list-style-type: none"> In the (default) Standard forum for general use, students will see an introduction text in a separate space above the list of discussions. Students see a button to start a new discussion (thread). <p>Activity 1.2 Artificial Intelligence discussion Activity 1.3 Artificial Intelligence discussion</p>  <ul style="list-style-type: none"> Default Standard forum for general use, 	
	Forum Type	<ul style="list-style-type: none"> Single, simple discussion the teachers posts a question and students are able only to reply. They cannot start a new topic of discussion. This is useful if you wish to keep a discussion focused. Note: This forum type does not work with separate groups. <p>Activity 1.2 Artificial Intelligence discussion Activity 1.2 Artificial Intelligence discussion</p> 	
		<ul style="list-style-type: none"> The Question and Answer forum is best used when you have a particular question that you wish to have answered. The teacher posts a question and students respond with possible answers. By default, a Q and A forum requires students to post once before viewing other students' postings. 	

			
		<p>The Standard forum displayed in a blog-like format works like the standard forum for general use, but the first post of each discussion is displayed (as in a blog) so that users can read it and then choose to respond by clicking the "Discuss this topic" button bottom right of the post.</p> 	
Availability	Due date	<ul style="list-style-type: none"> The deadline for submissions. 	<ul style="list-style-type: none"> As specified in the UIG if assessable.
	Cutoff date	<ul style="list-style-type: none"> Setting a Cut-off date to after the due date has passed allows students to submit their response after the due date has passed. Once the cutoff date has passed, students will not be able to post Not enabling the cut-off date means that students can continue to post. 	<ul style="list-style-type: none"> Not enabled.
Attachments and word count	Maximum attachment size	<ul style="list-style-type: none"> This setting defaults to the maximum upload limit. 	Default 100MB (maximum)
	Maximum number of attachments	<ul style="list-style-type: none"> Maximum number of uploaded files as required by the assignment. This is also the maximum number of feedback files that you can attach to each individual student when providing feedback. 	Default 5
	Display word count.	<ul style="list-style-type: none"> This setting specifies whether the word count is displayed 	Default No.
Subscription mode		<ul style="list-style-type: none"> When a participant is subscribed to a forum it 	Default Optional subscription.

		<p>means they will receive forum notifications.</p> <ul style="list-style-type: none"> • Optional subscription. Participants can choose whether to be subscribed. • Forced subscription. Everyone is subscribed and cannot unsubscribe. • Auto subscription. Everyone is subscribed initially but can choose to unsubscribe at any time. • Subscription disabled. Subscription not allowed. 	
	Read tracking	<ul style="list-style-type: none"> • Read tracking enables participants to easily check which post they have not yet seen highlighting any new post. • If set to optional. Participants can choose whether to turn tracking on or off via a link in the action menu. • If Allowed forced read tracking is enabled, then further option is available. Forced this means that tracking is always on, regardless of users' forum preferences. 	Default Optional
Discussion Locking	Lock discussions after period of inactivity	<ul style="list-style-type: none"> • Discussions may be automatically locked after a specified time has elapsed since the last reply. • Users with the capability to reply to locked discussions can unlock a discussion by replying to it. 	Default Do not lock discussions.
Post threshold for blocking		<ul style="list-style-type: none"> • Students can be blocked from posting more than a given number of posts in a given time period. 	Default Don't block
	Turnitin plagiarism plugin settings	<ul style="list-style-type: none"> • If Enable Turnitin is on the post and replies will be submitted to Turnitin for similarity report 	Default Yes.

		<ul style="list-style-type: none"> All Turnitin plagiarism settings are set by default. 	
Whole forum grading	Grade	<ul style="list-style-type: none"> Select the Grade type. The options are None, Scale or Point. If Scale is chosen, you can then choose a scale from the Scale drop-down options. If the scale you want to use is already available in the drop-down list select the scale from the list. 	Default None . If Assessable, set to Point .
	Maximum Grade	<ul style="list-style-type: none"> Available if Grade is set to Point The maximum points available for the assignment 	Set to Weight of the assessment.
	Grading method	<ul style="list-style-type: none"> The Simple Direct Grading method is the most commonly used grading option. The Marking Record is an advanced grading method where a lecturer can enter a comment per criterion and a mark up to a maximum. The Rubric is an advanced grading form used for criteria-based assessment. The rubric consists of a set of criteria. For each criterion, several descriptive levels are provided. A numerical grade is assigned to each of these levels. The rater chooses which level answers/describes the given criterion best. The raw rubric score is calculated as a sum of all criteria grades. The final grade is calculated by comparing the actual score with the worst/best possible score that could be received. 	Default Simple Direct Grading

	Grading category	<ul style="list-style-type: none"> This determines where your assignment will sit within the grades area. You will need to set up the categories in the Grader report first. 	Set Assessable assessments to Assessable category or its sub-category.
	Grade to pass	<ul style="list-style-type: none"> This setting determines the minimum grade required to pass. The value is used in activity and course completion, and in the gradebook, where pass grades are highlighted in green and fail grades in red. 	Set to 50% of the total weight
	Default setting for "Notify students"	<ul style="list-style-type: none"> Set the default value for the "Notify students" checkbox on the grading form. 	Default Yes
Common module settings	Availability	<ul style="list-style-type: none"> If the availability is set to Show on course page, the activity or resource is available to students. If the availability is set to Hide from students, the activity or resources is only available to users with permission to view hidden activities. If the course contains many activities or resources, the course page may be simplified by setting the availability 'Make available but not shown on course page'. In this case, a link to the activity or resource must be provided from elsewhere, such as from a page resource. The activity would still be listed in the gradebook and other reports. 	Default Show on course page
	Activity Completion	Completion tracking	<ul style="list-style-type: none"> Do not indicate activity completion - this will not show checks (ticks) next to the activity Students can manually mark the activity as completed - students press

		<p>the check (tick) to change it. (Note: they can do this even without doing the activity!)</p> <ul style="list-style-type: none"> • Show activity as complete when conditions are met - the selected completion criteria must be met before the check (tick) will change style 	
	Require view	<ul style="list-style-type: none"> • When this option is ticked, students have to view the activity i.e. click the link in order to complete it. You should not turn on the 'view' condition if you have other requirements - this makes extra work for the server and it's unlikely that a student could meet any other conditions without viewing the activity. 	Not ticked
	Require grade	<ul style="list-style-type: none"> • When this option is ticked, students have to get a grade on the activity in order to complete it. For example, a quiz would be marked completed as soon as the user submits it (so long as it doesn't contain any "essay" questions). 	If assessable, ticked .
	Require posts	<ul style="list-style-type: none"> • Student must post discussions or replies: 	
	Require discussions	<ul style="list-style-type: none"> • Student must create discussions: 	
	Require replies	<ul style="list-style-type: none"> • Student must post replies
